

Quality Control Inspection, Inc.
Engineering support services. Quality on the job.

03.17.2020

www.qcigroup.com

Healthy Company. Healthy Clients. Healthy Community.

To pro-actively address the quickly changing Covid-19 environment, we are encouraging our office employees to work from home, if possible, beginning Wednesday, March 18 for two weeks. Our office will remain open, and available to employees who need access to support their clients' business needs. Managers, Engineers and Contract Administrators will be coordinating the daily activities of their individual construction inspection teams to ensure that together we are as efficient and effective as possible during this time. We are fortunate in that we have designed our business to function in today's remote work environment, therefore **our business and our commitment to you will continue with the same quality of work and level of service that you expect, regardless of where we sit!**

As we adjust our operations to these unprecedented circumstances, we are taking various measures at each of our offices. You can continue to dial our office number, email us or call your QCI representative direct. Additionally, our inspection staff will continue with their project work with slight modifications, to limit exposure and reduce their personal risk.

If you have questions or concerns, please do not hesitate to call or email. Our company appreciates your understanding and flexibility as we all work to reduce the risk of this virus in our communities and within our businesses.

Thanks and be healthy!

Rick Capone
