

Project Profile

CSX Railroad Grade Separation Project

Year:
2003

Client:
Gannett Fleming Engineers
& Architects

Location:
Berea, Ohio

Project Scope:

- Construction of 'at-grade' railroad bypass to be excavated in a future phase creating highway underpass.
- Installation of caissons, substructure and superstructure, new pavement, storm and sanitary sewers, NEORS D access shaft, waterlines, grading and culvert.

Project Services:

- Provided Contract Administrative and Inspection Services.
- General project oversight for contract compliance.
- Served as owners liaison.
- Reviewed and processed contractors request for payments.
- Assisted with review of material submittals and shop drawings.
- Coordinated changes with contractor, engineer and owner.
- Reviewed and make recommendations to change orders.
- Provided means and methods to aid in resolving conflicts and disputes.
- Used Build A Form® Engineer Report System to document the project.

Cost:

\$ 3.5 M Contract #1
\$ 47 M Total Project
