

# Project Profile

Stephanie Tubbs Jones Transit Center (ARRA)

Year:  
2010

Client:  
Greater Cleveland Regional  
Transit Authority

Location:  
Cleveland, Ohio

## Project Scope:

- A 2,000 square foot indoor clean, safe waiting area for people catching a bus or transferring. This is similar in nature and design to an airport terminal.
- Restrooms, food kiosks, and a customer service area.
- State-of-the-art customer electronic information displays in a building connected to 3 integrated canopies and 16 bus station bays.
- The building has terrazzo floors and wooden beams.
- The transit center's design is aiming at a Leadership in Energy and Environmental Design (LEED) Gold certification.
- A landscaped plaza, planters, and public art.

## Project Services:

- Performed daily construction inspection.
- Wrote daily construction activity reports.
- Tracked materials, labor and equipment.
- Reviewed pay requests.
- Reviewed change requests.
- Answered requests for information.
- Scheduled and verified testing.
- Attended progress meetings.
- Acted as a liaison between the contractor and the GCRTA assisting in resolving conflicts.

Cost:  
\$ 9.6 M
