

Project Profile

Glenwood Boulevard Phase III (LPA)

Year:
2011

Client:
Village of Reminderville

Location:
Reminderville, Ohio

Project Scope:

The project included upgrading 0.81 miles of Glenwood Boulevard by removing/stabilizing existing roadway, widening and replacing with full depth concrete roadway including storm sewer system, traffic control, signs and pavement markings.

Project Services:

- Provided Contract Administrative and Inspection Services per ODOT LPA requirements.
- General project oversight for contract compliance.
- Served as owner's liaison.
- Conducted preconstruction and progress meetings.
- Coordinated all required materials testing using subconsultant GeoSci.
- Coordinated design changes with contractor, engineer, and owner.
- General project oversight to monitor contractor compliance.
- Reviewed and processed contractor's request for payments.
- Coordinated changes with contractor and engineer.
- Reviewed and made recommendations to change orders.
- Provided means and methods to aid in resolving conflicts and disputes.
- Utilized Build A Form® Engineer Report System for documenting the project.
- Managed and tracked pay items, pay estimates, and extras using Build A Form® Engineer Report System.

Cost:
\$ 1.3 M
